

## HAO,JENNIFER PEI RU

DOB: 02/15/1994  
Sex: F  
Phone: (917) 743-1266  
Patient ID: 100532029

Age: 29  
Fasting:

Specimen: ZD814657R  
Requisition: 0005840  
Lab Reference ID: 100532029  
Report Status: FINAL

Collected: 08/22/2023 13:17  
Received: 08/22/2023 13:18  
Reported: 08/27/2023 00:31

Client #: 97555208  
PATEL,KATAN  
WALK-IN LAB  
PO BOX 898  
AMITE, LA 70422-0898  
Phone: (800) 539-6119

## ▲ IMMUNOGLOBULINS

| Analyte            | Value  |                                 |
|--------------------|--------|---------------------------------|
| IMMUNOGLOBULIN A   | 298    | Reference Range: 47-310 mg/dL   |
| ▲ IMMUNOGLOBULIN G | 1682 H | Reference Range: 600-1640 mg/dL |
| IMMUNOGLOBULIN M   | 109    | Reference Range: 50-300 mg/dL   |

## HISTAMINE, PLASMA

| Analyte                                                                                                                                                                                                                                                                                                                              | Value |                                  |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|----------------------------------|
| HISTAMINE, PLASMA                                                                                                                                                                                                                                                                                                                    | <1.5  | Reference Range: < OR = 1.8ng/mL |
| This test was performed using a kit that has not been cleared or approved by the FDA. The analytical performance characteristics of this test have been determined by Quest Diagnostics Nichols Institute San Juan Capistrano. This test should not be used for diagnosis without confirmation by other medically established means. |       |                                  |

## DIHYDROTESTOSTERONE

| Analyte                                                                                                                                                                                                                                                                                               | Value |                                 |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|---------------------------------|
| DIHYDROTESTOSTERONE, LC/MS/MS                                                                                                                                                                                                                                                                         | 10    | Reference Range: < OR = 20ng/dL |
| This test was developed and its analytical performance characteristics have been determined by Quest Diagnostics Nichols Institute San Juan Capistrano. It has not been cleared or approved by FDA. This assay has been validated pursuant to the CLIA regulations and is used for clinical purposes. |       |                                 |
